PRODUCTIVITY FUNDING

The productivity funding model for state-funded institutions of higher learning is built around a set of shared principles developed by institutions and aligned with goals and objectives for post-secondary student attainment.

A twelve-month period running from July 1st through the following June 30th.

Full-Time Equivalent (FTE)

A statistic derived from the student credit hour (SSCH) production of an institution. The number of undergraduate FTE students for an academic term is obtained by dividing the total number of undergraduate student semester credit hours by 15. When computing an annual FTE, the student credit hours for all terms is summed and then divided by 30 undergraduate courses.
